OFFICE OF THE DIRECTOR OF PRINTING, STATIONERY AND PUBLICATIONS IN MYSORE, BANGALORE.

Notification dated 16th January 1952.

Postal Regulations require that post cards of private manufacture should not be either thinner or more flexible than the inland post cards issued by the Post Office. Owing to the need for economy, service post cards have been supplied from the Government Press to several Government Departments in the past in thin substance of card, since during the time of supply, such post cards did not require any postage stamps to be affixed to them when they were posted On Mysore Government Service. Since at present the post cards have to be affixed with stamps, it is hereby notified for the information of all officers that the service post cards which are thinner than the inland cards of the Postal Department may be made use of as post cards only in unavoidable circumstances, after affixing stamps at the rate of postage required for envelopes, or cards got pasted double and made use of. Supplies of post cards from the Government Press at present are however, being made so as to be acceptable to the Postal Department for being used as post cards and stamped as such.
